WANT CHAIRS TO CANE.

Needed by Industrial School for Crippled and Deformed Children.

Chairs to cane are wanted by the Industrial School for Crippled and Deformed Children at 241 St Botolph st for its cane-seating department. Hundreds of chairs are caned by the children each year, but just now business is slack and it is felt that if the public is informed of this enough chairs will be sent in to keep the workers busy until the close of the term the last of June.

Chairs will be called for and delivered within the city proper and express one way will be paid on chairs from outside the city. Orders may be given by telephoning Back Bay 2647.
