March 12, 2020

Many communities are taking steps to reduce exposure and the possible spread of COVID-19. Cotting Consulting is working strategically to help reduce risks as well. As part of that effort, we are providing additional options to continue to support teams and students.

We are moving some visits to a remote model using Google Hangouts. Google Hangouts, when used through G Suite for Education accounts, is private and secure. Google Hangouts allows for online chat, audio calls, video conferencing and screen sharing. Please coordinate with your consultant to determine if this will meet your needs.

For some services, we will need to be at the student’s educational program. This is particularly true for evaluations and some equipment management tasks. Please know that we are taking additional measures to ensure that our equipment and materials are clean and sanitized before and after interacting with each client.

If the needs of your specific site require visitors to be rescheduled in the short-term, please let your consultant know.

Karen M. Waddill
