Work from Home!  

Many people are working from home right now.

While we are not at school and not going to Project Bridges or practicing our work skills on campus, there are many tasks you can do around the house to help your family.

Take a look at this list and see what work you can do!

1. Load, wash, dry, fold or put away laundry.
2. Wash, dry, and or put away dishes.
3. Help recycle junk mail or other paper your family does not need in the house.
4. Organize your books! Pick a fun way to put them in order so you and your family can have ready.
5. Vacuum the rug or carpet or sweep the floor.
6. Write emails to family and friends to keep in touch.
7. Find some photos of family and friends to put in picture frames or a scrapbook.
8. If any of these tasks are hard to do by yourself, sit with a family member and help them remember the steps to doing each job.
Remember that it is almost most important to be safe when you are doing jobs around the house. Also remember that it is not a race and there is no rush.

It will be fun for your Work Skills and Vocational teachers to see pictures of jobs you are doing! If you want, send a picture of you doing a job to help around the house to Ms. Mingle, Ms. Robinson, and Mr. Teuber and we with your permission we will post it on the Project Bridges Instagram feed.

Ms. Mingle amingle@cotting.org
Ms. Robinson arobinson@cotting.org
Mr. Teuber mteuber@cotting.org
