

Recreation Programs

For decades Easterseals MA has been a proud provider of recreation programs for individuals with disabilities, and today is no different. Our Accessible Martial Arts, was designed for people with and without disabilities who want to learn and practice self-defense, stretching, exercise and relaxation techniques. We also offer adapted swim programs throughout the year, as well as an adapted horseback riding program.

College Navigator

The College Navigator program helps students with disabilities develop skills beyond the college classroom to prepare them to reach their long term educational and employment goals. College Navigator services are individualized to address the students' needs though face-to-face meetings (on or near campus), through virtual meetings, or a hybrid of both.

Transition Services

We provide comprehensive and individually tailored Transition Assessments to assist youth with disabilities and their IEP Teams to identify meaningful goals for their IEP by using a series of assessment tools, observation, and interviews. Every assessment includes recommendations in different transition related areas.

Employment & Training Services

Our experienced employment specialists provide training and on-going support, tailored to each individual's interest, so students and adults with disabilities can increase their skills and find good internships and jobs. Not only do we work with individuals to secure interviews, but we also provide information on current trends in the job market and offer an individualized, comprehensive approach that helps people with disabilities find and keep a competitive job.

Expertise Where You Need It

Easterseals Massachusetts provides essential programs and services to children and adults with disabilities throughout the state. Our staff are experts in their fields and provide services in a wide range of settings.

Applied Behavior Analysis

Easterseals MA now offers Applied Behavioral Analysis services in a wide range of settings across an individual's life span. Applied Behavioral Analysis is a therapeutic approach for individuals with behavioral challenges that uses the principles of learning theory to improve socially significant behaviors. These services focus on creating an environment to support and develop behavioral change. Our Board Certified Behavioral Analysts conduct functional behavior assessments, consult with professionals and family members, write behavior intervention plans and conduct trainings. Our clinicians are highly qualified professionals who use a personalized approach with each individual with whom they work.

Rehabilitation Services

Easterseals MA therapists seamlessly partner with our clients to provide physical, occupational and speech therapy services to help each individual achieve greater independence. Easterseals MA therapists have expertise in a wide range of settings that span across an individual's life span.

A timely and quality response to therapy needs can increase function, independence and development. Our personalized approach delivers high quality and dependable rehabilitation services for infants, children, adolescents, adults and seniors.

Youth Programs

Easterseals MA offers a variety of youth programs including Youth Leadership Network and mentoring opportunities.

Youth Leadership Network, supported by the Massachusetts Rehabilitation Commission, promotes self-advocacy and self-awareness for teens and young adults with disabilities up to the age of 26.

Our mentoring programs facilitate personal growth and employment for teens and young adults with disabilities during life transitions.

Assistive Technology Services

For individuals with disabilities, assistive technology is often the difference between independence and relying on others for the simplest of tasks.

Easterseals MA offers assessments and trainings in assistive technology that help individuals with disabilities in their schools, homes, and offices.

At the MassMATCH Assistive Technology Regional Centers in Boston and Worcester, operated by Easterseals MA, people with and without disabilities and their families can see, touch and borrow assistive technology devices to make more informed decisions regarding the technology that will meet their needs.

Our Assistive Technology Loan Program is an alternative financing program that provides access to low interest cash loans for the purchase of assistive devices and services to improve the quality of life individuals with disabilities.

And lastly, our Augmentative Communication Specialists work with individuals with congenital or acquired disabilities who have difficulty using speech for communication.
